Personas

Jerrold 51 years | Technical Systems Administrator | Avid Naturalist

Background

Gerald's role at Cheekwood Estate and Gardens is entirely backend focused. He is responsible for making sure the infrastructure that powers everything works as intended.

Goals

- Wants the infrastructure to scale during high traffic seasonal events.
- Desires to maintain a reliable backend that will run without interruption.
- Wishes to build a permission structure that protects content integrity across all admin roles.

Pain Points

- Frustrated when other admins make changes outside their permissions that create system conflicts.
- Fears for any gap between what the system displays and what is accurate on the ground

"System reliability is a direct reflection of the visitor experience, and rests on me!"

Personas

Background

Franny loves to visit arboretums. However, she has mobility limitations and is visiting Cheekwood Estate and Gardens for the first time.

Goals

- Wants an experience that feels designed with her in mind.
- She wants to enjoy the full experience without feeling like a burden.

Pain Points

- Anxious about unexpected physical barriers or difficult terrain appearing mid-visit.
- Frustrated if accessibility information is inaccurate or outdated.

Franny | 64 years | Retired | Avid Naturalist

"I wish I had known about this route before we started walking."

Personas

Eric | 28 years | Content Creator | Thrill Seeker

Background

Eric is a content creator eager to capture visually compelling footage of the estate and gardens for his audience.

Goals

- Find the most scenic locations on the grounds and gardens.
- To know in advance whether conditions are good to capture content.
- Access specific details if, and when he needs them.
- Navigate the grounds efficiently without sacrificing safety or equipment.

Pain Points

- Frustrated that the map only offers standard navigation and does not feature visually distinct areas.
- Losing signal when he's trying to post content.
- Stressed when crowds or restricted areas limit his ability to capture the content he came for.

"Where is the most photogenic spot on the grounds?"

Personas

Background

A visitor experience coordinator at Cheekwood Estate & Gardens. She focuses entirely on people. She is the human layer ensuring that what the system delivers meets the needs of every guest who walks through the gates.

Goals

- Wants every visitor to the estate and gardens find what they need, without having to ask for directions.
- Wishes to reduce the volume of repetitive questions her office receives.

Pain Points

- Overwhelmed at the beginning of seasonal exhibits where gaps are revealed in the currently available information and what's needed.
- Frustrated when she must rely on other individuals to make updates she cannot control directly.

Scarlett 36 years | Experience Coordinator | Caring Advisor

"If a visitor can't find an accessible route easily, then I've failed."
